memorandum

TO: T. C. Greengard, EG&G, Manager of
Remediation Programs, T130B

DATE: October 3, 1991

FROM: D. S. Catlett, Manager, LATO/RF 

MAIL STOP/TELEPHONE: T130A, 2978

SYMBOL: NM/RFTO:91-338

SUBJECT: **Formal Acceptance of Project: Treatability Study Plan for Filtration
of OU2 Waters (No. LATO-EG&G-91-027)**

The manager of DOE/RFO has approved that phase I of this project be performed by Los Alamos National Laboratory as detailed in the EG&G statement of work. Phase I is the preparation of the Treatability Study Plan (TSP).

This memo formally states LATO/RF's acceptance of phase I of the project to the EG&G requester.

Enclosed are copies of the approved EG&G purchase document (No. 102769GD) and the associated statement of work. These materials will be transmitted through proper fiscal channels to EES Division at Los Alamos.

The statement of work specifies all deliverables and milestone schedules. Key elements of the project are summarized below.

Funding Provided for Phase I:	\$20K in FY91 and \$30K in FY92
Schedule:	Draft TSP due September 30, 1991
	Final TSP due date TBD
LATO/RF Lead:	P. M. Stanley, FTS 345-5928

Any modifications to the work scope, deliverables, or milestones must be coordinated through the LATO/RF Lead. If you have any questions, please contact the LATO/RF Lead.

Enclosures: EG&G Purchase document and statement of work
